RAMLAN FAUZI (RAMLAN)

Ramlan is now in the last grade of pharmaceutical faculty at College of industrial technology and pharmaceutical in Bogor and has completed the presentation of his research result about the extraction of sappan wood (*Caesalpinia sappan* L) for nail polish and blush on. in July 2019, Ramlan's achievement is very good, he could complete his research earlier than his classmates.

Ramlan also already attended the internship program at Red Cross Hospital in Bogor from July until September and in October he will face the comprehensive examination. Since his major is pharmaceutical, during the internship he had to face competency examination. In November will be his historical day because in that month is his final assessment day scheduled.

Ramlan's official graduation ceremony will take place in March 2020 when he will receive his certificate as bachelor of pharmacy. He is very excited about it.

During studying at the collage, Ramlan lives in different areas. He stays in a boarding room and rarely meet with his family. After graduation he hopes that he will find a good job with proper salary nearby his home so he can stay and live with his family again. His parents and Ramlan are happy that Ramlan almost completed his study. They said: ***"Thank you very much Dr.Vern, we are unable to repay your generous support, we hope you success and happiness always."***
