10	Fajar Aulia	Grade 7	Grade 8

HOUSE VISITS

House visit are very important for the program because by visiting the houses, YUM's staff is able to know every child's condition. Once a year each house is visited by a YUM's staff where they have conversations and questions for the child and his/her parents to know their current condition.

SCHOOL VISITS

The beneficiaries study in different schools in the area so to monitor each child's progress in school, YUM's staff have to go to the schools regularly. Currently, our beneficiaries are studying in Junior, Senior and Vocational High School.

MEDICAL CHECK-UP

Twice a year, all the children come to YUM's community centre to get a free medical check up. During this funding year, the Medical Check-up was held in December 2018 and August 2019. In December the children met with a dentist while in August they had a general check up with a health staff from the local health clinic (Puskesmas).

RECREATIONAL ACTIVITIES

Our children come from modest families; their parents' income is very limited, so they are unable to bring them to recreation areas. That's why our children really love when we organise recreational activities. On August 1st all of our sponsored children went to Jungle Land in Bogor, where the children could swim as much as they want.

BI-MONTHLY GATHERINGS WITH THE STUDENTS AND THEIR FAMILY

All of the children's parents have to come to YUM's office to attend small workshops every two month. They receive different information to improve their knowledge in parenting skills.

STUDENT PROFILES

UPDATED AND NEW PROFILES

USI SAFITRI

Usi just passed the final exam of the second grade of Senior High School and she is now in her last year of Senior High School with a major in Social Sciences.

After school Usi has lots of activities, She joins in many extracurricular activities such as Girls Scouts, Multimedia and Fashion.

Usi regularly comes to YUM's office to get a free medical check up. So far the results have always been good.

Usi lives with her parents, grandmother and her younger sister. Her father is the breadwinner of the family with limited income, so with this program her parents are very thankful that their daughter could continue her studies at Senior High School.

HIKMAH RAMDANI

Hikmah is a talented child, On August 3rd she participated in Arabic Olympiad in Bandung, West Java and she got a Certificate. Hikmah was very happy that she had a chance to be involved in that event.

Hikmah is now in the last grade of Senior High School. Last semester she was ranked 5th in her class with an average score of 87 points from all 14 subjects. On August 31st, From her medical check up, the result was that she has myopia in her left eye and she often has breathing difficulties when she feel tired.

After graduating from school, Hikmah hopes to be able to continue her studies at University. Although her mother doesn't have proper income to support her in University, Hikmah hopes that there will be a donor to support her.

Iswandi is wearing a heat

M. ISWANDI

Iswandi is now in the second grade of Vocational High School with marketing and business as his major at SMKN 1 Cipanas. Iswandi has a good performance in school, Last semester he was in the top ten ranks in his class with an average score of 81 points,

Iswandi really loves sports especially playing futsal, To improve his skill, at school he joins the futsal club. Every Tuesday he always plays futsal with his friends.

Iswandi comes from a modest family, He lives in a simple house with his parents. In order to support the family his father works as a farmer labor while his mother is a house wife taking care of the family.

ADI RISMAN

Adi Risman is now in the second grade of Vocational High School in a new school named Wira Darma Persada with computer as his major. Previously Adi Risman studied at SMK AL - Uslah.

Adi Risman lives separately from his family, He lives in a boarding school. At least once a month his parents visit him. Adi Risman is the second child of four siblings. His older brother already graduated from the school while his younger siblings still study in Elementary and Junior High School.

Andi Risman's parents both work, His father works as construction labor while his mother is a massage therapist.

M. JAENAL

A few months ago Jaenal finished his final exam in the first grade of high school, His result was not bad with an average score of 77.5 points. Jaenal is now in the second grade with a major in Social Sciences at SMAN I Sukaresmi.

At school his performance is good, He never skips school except when he gets sick. After school he joins the basket ball and football club. Twice a week he always plays football and basketball with his friends.

Jaenal lives with his mother because his father passed away several years ago. In order to pay for the family's monthly expenses, his mother sells vegetables fitter and rice.

IMAM AKBAR

A few months ago Imam graduated from Junior High and he is now in the first grade of Senior High with a major in Sciences at the best school in Cipanas called SMAN 1 Sukaresmi. Imam goes to school from Monday to Saturday.

At the school Imam joins in two extracurricular activities, Every Monday he joins the English Club while on Thursday he joins in futsal activity, Imam very much enjoys to join in those activities because he is able to improve his skill and knowledge.

Imam is the first child in the family, He has two younger siblings, who are still in Junior High School and Pre school. They live together in their grandmother's house.

The dentist is checking Imam's teeth.

ANANG SURYANA

This year will be the last year for Anang as he will be finishing his studies at Senior High School. Anang is an intelligent child, At school his performance is good, with an average score of 81.7 points.

Anang's hobby is sport, Every Sunday he joins in a badminton club. A few months ago he participated in a tournament, Although he didn't become a champion, he was very proud that he could join in the tournament.

Anang is the second child in the family, His older brother already graduated from school while his younger brother is still studying in Elementary school.

LUSI NOVIANTI

In June 2020, Lusi will graduate from Junior High School. Her achievement is good. Last semester she was ranked 8th in her class with an average score of 86.6. Lusi likes reading books, In her spare time she often comes to YUM's library to read and borrow books ,She loves reading novels.

Lusi is motivated in learning everything, Every Friday evening she joins the music ensemble class and every Thursday she joins in the English class. A few months ago she already completed the basic level and she got a certificate (see the photo).

Lusi's father is the breadwinner of the family, He works as a labor with limited income. So with this program Lusi's parents are very grateful that their daughter could continue her studies.

Lusi is wearing black veil

AI MULYATI

Ai just graduated from Junior High school and she now enrolled in Vocational High School with tourism as her major at SMKN 1 Pacet. Ai enjoys it very much and is grateful that she could study in the school.

After school every Monday and Thursday she joins in the dance club as her extracurricular activity. Ai has great desire to learn everything. She joins in the computer and English class at YUM's Vocational Training Center.

Ai and family live in a simple house with a very dense population. The house has one living room, one bedroom, a small kitchen and toilet. Every month her parents have to pay IDR 20,000 or AUD 2.1 for electricity cost.

FAJAR AULIA

Fajar is now in the second grade of Junior High School. Fajar is a smart student, He was ranked 5th in class with an average score of 85.4 points. Fajar's hobbies are reading books and playing football and futsal. At least once a week he comes to the school's library.

To improve his skills, he joined the football club and in January - February 2020 he will participate in a futsal tournament at school. He and the team hope to be the champions.

Fajar really wants to make his parents happy and proud of him, so for his future career, he wants to be a successful policeman.
